

Water Management's "Conservor" 2.0 gpm Showerhead

The WMI Showerhead provides a terrific shower regardless of the incoming line pressure.

It delivers 2.0 gallons per minute (gpm) at 80 PSI and meets ANSI/ASM specifications 2.0 gpm (spec. A112 18 1.M).

Features include:

- Multi-mode spray selection: Regular, Massage, and Combo.
- **Pressure compensating flow regulator** provides consistent spray and flow over a wide range of water pressures.
- Energy efficient non-aerating spray reduces heat loss and increases comfort.
- Debris screen prevents clogging.
- Lab tested and accepted in over 200,000 households!
